

A personal finance community for values-driven women.

We Value Community.

It's the backbone of The Pledgettes. And it's amazing what happens when we connect with financially-minded women to have money conversations about our money moves! Our investments, our values-aligned spending swaps or even the little splurges we refuse to give up (\$5 ginger Kombucha please!)

And that's why we love talking about how to build your Financial A-Team.

You probably know by now that your Financial A-Team is the group of people you want to surround yourself with to skyrocket to your goals. And it's not a one-size fits all. There are tons of different people you need on your team - [we wrote an article about that to get you started.](#)

But did you know we are also profiling dozens of women who are working in that space right now?

Check out our Financial A-Team blog series to learn about the different support you can build into your community to achieve your values-aligned goals.
